

# AUTO JACKS

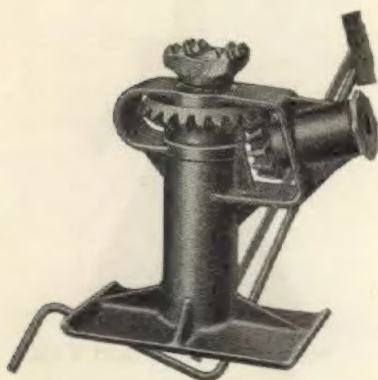

## DREADNAUT

### Light Pressed Steel Model.

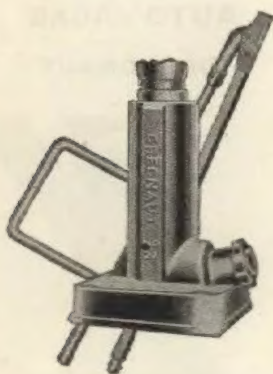

A light, pressed steel ratchet jack of unusual strength and efficiency; rack bar carefully made and operating mechanism positive; the wide flared base adds strength to stand, permitting unusual service. Finished in olive green lacquer.

No. 57. Height, lowered  $8\frac{1}{4}$  in.; height raised  $13\frac{1}{2}$  in.; handle 16 in. flat steel; capacity 1500 lbs. Wt. ea.  $4\frac{1}{2}$  lbs. .... Each \$1 50

**DREADNAUT****Balloon Tire.**

A very sturdy twin-lift jack for light cars. Only one screw operates at a time, assisted by ball-bearings; large skid base permits handy placement. Finished in red lacquer.

**No. 999.** Height lowered  $6\frac{1}{2}$  in.; height raised 15 in.; handle 40 inch folding; capacity 2000 lbs. Wt. ea.  $8\frac{1}{4}$  lbs. ....Each \$3 50

**DREADNAUT****Balloon Tire.**

Designed for use with balloon tires. The load is carried directly on telescoping steel cylinders which prevent tipping with consequent binding of driving screws when under load. The entire mechanism including the double screws are entirely enclosed, free from dirt and water. Finished in red lacquer.

**No. 27.** Height lowered 7 in.; height raised  $16\frac{3}{4}$  in.; handle 48 in. auger type, folding; capacity 3000 lbs. Wt. ea.  $11\frac{1}{4}$  lbs. ....Each \$5 25
